Tampa, Florida

PLANTS AND HOW TO HANDLE ON ARRIVAL

In planting an aquarium, tall plants are usually placed in the background with the shorter plants in front. Vallisnerias as well as some types of Sagittarias are usually used in the background. We offer many decorative plants to be used as center plants. The type used depends on the size of the aquarium and the personal desires of the individual.

BUNCHED PLANTS consist of several sprigs tied together with a piece of lead. Remove the lead and push each sprig into the sand where it will root. Plants sold as outtings also root when planted in the aquarium.

FLOATING PLANTS such as Salvinia, Floating Valentines, Water Hyacinths, Water Lettuce, Floating Water Fern, etc., should be allowed to float even though they have roots. They should not be planted!

L I G H T

Lack of sunlight is one of the greatest causes of plant spoilage. With few exceptions, Aquarium Plants require from 3 to 5 hours of sunlight each day, or the equivalent in strong electric light in which the light bulb is placed directly over the surface of the aquarium water. Plants kept without some sunlight or direct artificial light usually deteriorate.

Sunshine is also necessary for the good health of fish. Some varieties contract the disease known as "Rickets" because of the lack of sunlight. Fish with this disease look caved-in and seem to have hollow stomachs.

SUGGESTIONS FOR HANDLING FISH SHIPMENTS

1. Give us your ADDRESS & TELEPHONE NUMBER and leave your TELEPHONE NUMBER with the Express Company so they can call you immediately on arrival of shipment.
2. Before fish arrive, have a clean aquarium already set up with seasoned water ready for them. On arrival, remove the fish from can placing them in a small bowl or two with water from the shipping can. Strain the remainder of the water from the can into the aquarium. Do not do this if the water is sour or polluted. Then, float the small jars containing the fish in your aquarium until the temperature in the jars and the aquarium is the same, then release the fish. In a newly set up aquarium it is wise to add a teaspoonful of salt for every 5 gallons of water. Dissolve the salt in a separate container before adding to aquarium. This small amount will not harm Plants or Snails and acts as a tonic for fish.
3. EXAMINE FISH SHIPMENT CAREFULLY ON ARRIVAL for signs of "ROUGH HANDLING" Such as:

Wet or torn cartons	Wet packing
Low water level	Can turned over
Bruised Fish	Etc.

If such is the case, get a proper Bad Order Report from the expressman stating "rough handling". This gives you grounds for claim in case of losses.

FOR FURTHER REFERENCE AND INSTRUCTIONS ON TROPICAL FISH, PLANTS AND SNAILS
REFER TO THE FOLLOWING TROPICAL FISH BOOKS WHICH WE OFFER:

"Exotic Aquarium Fishes"	By Wm. T. Lanes	\$6.50
"The Modern Aquarium"	" " " "	1.00

HARDY TROPICAL FISH COLLECTION #1 \$6.00

These fish and snails can stand temperatures from 45 to 80 degrees and can live in the average home temperature without heating the tank. This Collection consists of ONE PAIR EACH (unless marked otherwise) OF THE FOLLOWING:

American Flag Fish
Peaceful "Mosquito Fish"
1 Amber Pink Tropical Catfish
Aplocheilus Latipes (Medaka)
Fundulus Chrysotus
Zebra Fish

Mollienesia Latipinna Sailfin
Young Black Mollienesias
"Blue Dace"
6 Glass Ghost Shrimp
6 Black Ramshorn Snails
3 Mystery Snails

INCLUDE \$1.50 FOR A LARGE AMERICAN CAN AND 75¢ FOR CARTON AND PACKING
BOTH ARE RETURNABLE FOR CREDIT OR REFUND.

HARDY TROPICAL FISH COLLECTION #2 \$8.00

This collection can stand a lot of neglect, but temperatures must not drop much below 60 degrees or go above 90 degrees. Contains ONE PAIR EACH of the following:

Red Moons
Rosy Barbs
Black Mollienesia
Gold Crescent Moons
Golden Helmet Moons
Barbus Semifasciolatus

Blue Moons
Red or Green Swordtails
Barbus Oligolepis
Black Hybrid Moons
Zebra Danio
Red Tail Mollienesia Sphenops

INCLUDE \$1.50 FOR A LARGE AMERICAN CAN AND 75¢ FOR CARTON AND PACKING
BOTH ARE RETURNABLE FOR CREDIT OR REFUND.

FROM TIME TO TIME SOME OF THE FISH IN THESE COLLECTIONS ARE NOT AVAILABLE.
WHEN THIS HAPPENS WE SUBSTITUTE SIMILAR VARIETIES OF EQUAL VALUE.
